

SULOCHANA BHUJEL

Experienced Software Developer with extensive full-lifecycle experience of software development and design. Excellent understanding of database, quality assurance and object-oriented programming. Has excellent technical, analytical and problem solving skills. Quick learner with ability to work in a team as well as individually and strongly believe in hardwork.

EXPERIENCE

Limeworx — Web Developer

May 2018 - Dec 2018

- Carried out software maintenance work for UK's large healthcare service providers. Developed fixes and introduced new functionalities.
- Developed optimized, responsive and interactive websites that ensured secure, high traffic, page views and user experience.
- Modified existing software to detect and correct errors, improve performance, upgrade interfaces and maintain existing applications.
- Designed, developed and implemented readable and reusable API's.

Self Employed/Remote — Full Stack Developer

Jan 2017 - Nov 2017

- Developed responsive web applications, themes and plugins.
- Identified and solved design and functionality issues of websites.
- Developed secured e-commerce websites.

Genese — Software Developer/Engineer

Feb 2014 - Nov 2016

- Performed software development and design for clients in diverse fields responsive to different types of devices.
- Excelled at rapid application development and management of technological issues for assigned projects, earning highest customer satisfaction rating for all software solutions delivered.
- Worked in an Agile approach, attending stand-ups and using JIRA to update tasks.
- Consulted with team and clients regularly regarding projects, proposals, and technical issues that arise during the development process.
